## 11/18/22 - Landscape-scale Resilience - Collaborating Across the Tule River and Deer Creek Watersheds Event

The TBWN is excited to announce that the “Landscape-scale Resilience - Collaborating Across the Tule River and Deer Creek Watersheds” virtual event will be held on [Aug 18, 2022](#) from 1 - 3 p.m.

The event will provide an overview of longer term and recent efforts to support resilience in the region, as well as discussion to begin exploring opportunities for coordination and shared leadership to generate mutually beneficial outcomes for ag, water, ecological, and socio-economic interests in the face of challenging conditions.

The speakers are Reyn Akiona (Multi-benefit Land Repurposing Project), Adam Livingston (Southern Sierra Partnership), Samantha Arthur (Lower Deer Creek Watershed Plan), Jeff Powers and Larry Saslaw (Sequoias to the Sloughs), and Denise Kadara (Allensworth Progressive Association).
